

Semi – Automatic Bruting Machine

Specifications

- 1) Weight : 40 Kg
- 2) Dimension : 660 x 550 x 280 Cm
- 3) Supply : 220 VAC, 50 Hz, 1 Phase
- 4) Load : 400 VA
- 5) Lighting : 12 V 10 W

APPLICATION

- To barrel brute a pre-tabled diamond to form a cylindrical girdle for a Round Brilliant.

APPLICATION

- Suitable for both, Sawable & Makeable.
- Silhouette viewing system with ergonomically designed graph to have better judgement of bruting.
- Two stones can be simultaneously bruted.
- Beardless surface finish, requiring no further girdle finishing.
- Better control and safe operation adds to recovery.
- Single operator can run up to 10 Machines.
- Handles all sizes between 5 Cents to 15 Carats.
- Correct speed for every stone thru variable speed control.
- Can be used for generating fancy shapes as well.
- Can be used in conjunction with Lexus Dia Centering and Lexus Fancy Centering, for fairly accurate control and doing away with poorly skilled operator.

APPLICATION

- Bench for 8/12 machines with Suction System & internal wiring for individual machines.
