ViBox

Diamond / Jewellery Video Capturing System
Different Lighting Environment, Programmable and repeatable

| 360° Pavilion | 360° Between Pin | True Fancy Colors | Jewellery |

Salient Features

- Creates consistent high-quality images and movies under 360° rotation or swinging for loose colorless diamonds, Fancy coloured diamonds, Rough diamonds, Gemstones, and Diamond Jewelry

- Quick and programmable lighting environment

- Uses Canon Full frame Professional camera and Macro lenses

- **Create stereo movies to encourage buying thru display on large 3D screens in showrooms**

- Various trajectories of the diamond movement. The diamond can be rocked face up in a movement of ∞, or can be made to turn 360° or can be swung sideways to adjustable tilt angle

- Three different Gimbals to choose from

- Pre-defined and custom presets for camera settings and video formats.

- Loose as well as the mounted diamonds can be pictured

- For large Jewelry pieces, Multifocus images helps match human observation. Suitable for media printing

- Possibility to add "Watermark", to move ahead in branding.
